- Software developer with experience in personal, academic, and volunteer projects.
 - Core technologies include Java, APIs, and cloud technologies such as AWS, along with experience using the Office Suite.
 - Results-oriented, with technical and interpersonal skills to contribute effectively to teams.
-

SKILLS

- **Technical:** Java, Kotlin, Python, SQL, Spring Boot, MySQL, AWS (Amazon EC2, ECS, IoT), Git, Excel, Word, PowerPoint.
 - **Soft skills:** Effective communication, Teamwork, Problem-solving, Critical thinking, Proactivity, Adaptability, Time management, Attention to detail, Collaboration, Flexibility.
-

EXPERIENCE

Junior Software Developer | Back-end (02/2024 - Present)

LC Technology - A technology company focused on supermarket solutions.

- Developed a Cashier System in Java with MySQL, using Swing for the interface and JDBC for database connection.
- The application allows product registration, inventory management, sales processing with barcode reading, receipt issuance, and detailed reporting for decision-making.
- Results: Improved operational efficiency, real-time inventory control, cost reduction, better customer service, operational security, and resource optimization.

EDUCATION

Bachelor's Degree in Information Systems (02/2024 – 12/2027)

University of Taubaté (Brazil)

COURSES

- **AWS Fundamentals** – Escola da Nuvem (189 hours)
 - **Java Course** – JavaDojo (10/2023 – 06/2024)
 - **Spring Boot Course** – JavaDojo (10/2023 – 06/2024)
-

CERTIFICATIONS

- **AWS Certified Cloud Practitioner:** (12/2024 - 12/2027)
 - **Java:** Classes and Objects, Inheritance, Polymorphism, Encapsulation, Try-Catch-Finally, Frameworks, Collections, Swing, Threads, JDBC, ORM, JUnit, Mocking.
 - **Spring Boot:** RESTful APIs, Data Persistence, JWT Security, Deployment, Testing, Microservices.
-

LANGUAGES

- **Spanish:** Upper-Intermediate (B1)
- **English:** Upper-Intermediate (B2)
- **Portuguese:** Native
